EC DW Pilot Study Conclusions and Recommendations - DRAFT 04072017.docx

Hi Tom,

Please see attached for DRAFT Conclusions and Recommendations for the East Chicago Drinking Water Pilot Study, with bullet-point descriptions of recommended best practices for contractors and residents under the “Specific Recommendations” section. Some additional details are currently under the “Notes and References” section at the bottom, to try to avoid detracting from the main points.

The version attached incorporates Miguel’s and Andrea’s review, but I have accepted changes to give you a clean version for review. If you would like to see the specific revisions since Tuesday’s meeting, the One Drive link below is still active.

Please let us know if you have any comments or would like to discuss.

Thanks,

Val

Miguel and Andrea,

I incorporated today's discussion regarding recommended best practices (for contractors and residents) into the "specific recommendations" section. I also accepted other changes on the rest of the document.

Please see the revised version at:

Please let me know if you have any comments, so that we can finalize this for Tom's review by noon Friday.

Thanks!

Val
